PSA for Empire development: The original objective of the Empire project was to demonstrate the post-exploitation capabilities of PowerShell and bring awareness to PowerShell attacks used by (at the time) more advanced adversaries.

Chris (@xonor) @xonor - Jul 31
We feel that we've accomplished that objective and are proud to see the security optics and improvements that have been provided by Microsoft in the past few years; in addition to the increased focus the EDI community has placed on PowerShell based attacks.

Chris (@xonor) @xonor - Jul 31
With that in mind, the project's time has passed and newer frameworks with better capabilities have been released. So it's time to say farewell to Empire. We will not be updating or maintaining the project any further.

If those assumptions are correct, one can see Malachi, as one of the later prophets of the Jewish Scriptures, looking forward to a time of the todah sacrifice as the only sacrifice remaining in the messianic age to come.
