Qiū (surname)

An important subset ~25% of genes encodes transmembrane proteins, which represent the targets of over half of known drugs. This time, it has taken the form of a claim that Israel is denying COVID-19 vaccinations to its non-Jewish citizens and to the residents of the not-yet-sovereign Palestinian Authority. Notably, the drug used in the latter study—Favipiravir—has been successfully tested by the Chinese Academy of Military Medical Sciences against Ebola and other viruses.
