Peoples of the Tundra: Northern Siberians in the Post

Marriage and Family Review, 46, 79—106.

Peoples of the Tundra: Northern Siberians in the Post

With the transition to the market economy in Russia, state-sponsored production in indigenous Arctic communities has failed, employment has diminished, and transportation to and from rural indigenous settlements has become prohibitively expensive.

Syllabus, Comparative Indigenous Studies I

From marginalization to self-determination: The small indigenous nations of Northern Russia on the eve of the millennium pp.

Reproductive Responses to Economic Uncertainty

This research would not have been possible without the hospitality, goodwill, and cooperation of the people of the study community in the Taimyr Region. Acknowledgments We would like to thank our local assistants in Sakhalin, Natalya Chaika Nekrasovka and Alena Kavozg Nogliki , for collecting the data on subsistence resources for the CLUE project NSF award 0755832 , overseen by Hugh Beach. The supplies were used in subsistence foraging and minimal supply of bush products to the enterprise.

Peoples Of The Tundra Northern Siberians In The Post Communist Transition PDF Book

In this study we examine the dramatic fertility transition in one community in which the total fertility rate fell from approximately five children per woman before 1993 to just over one child per woman a decade later. Moscow: Assotsiya korennyyh malochislenyyh narodov Severa, Sibiri i Dalnego Vostoka.

Waveland Press

The American Naturalist, 172, 797—805. His research with indigenous peoples in Siberia has been featured in the journals Science, Human Nature, Human Ecology, Nomadic Peoples, and Sustainability Science. Proceedings of the National Academy of Sciences, 87, 1139—1143.
