Cardboard slipcase has two tears and general bumping. This would certainly enlighten our understanding of Roman surveying and road planning although, as far as we are aware, this has not yet been attempted. The roadmap is in fact just a fold out section in the back, the bulk of the content is local attractions and BMC authorised service depots.

Black flexible leatherette with gilt titles. All his work was of splendid quality and he was chosen to print the four sheets of the first Ordnance Survey map - of Kent - which was published in 1801. Related collection items British Library website satisfaction survey Take part in our web survey! The Britannia was to have been part of a much larger project in 5 or 6 volumes, covering maps of all the counties, a survey of London and various town plans as well as maps of other parts of the world, but this proved too great a task and only the works detailed below were issued.

Road map of England & Wales [cartographic material]

Nice to see the original Mr Bibendum, puffing away on a huge cigar - no political correctness rubbish in those days. Corners are a little bumped and spine ends are a mildly crushed.
