Surface Mining Control and Reclamation Act of 1977

Before permitting a new in-river dredge site or pit mine, one must find a suitable location with a reliable quantity of sand and gravel. Minerals shall mean any naturally occurring chemical element or compound, or groups of elements and compounds, formed from inorganic processes and organic substances including, but not limited to, coal, peat, bituminous rock, but excluding geothermal resources, natural gas, and petroleum. It is also a comprehensive interdisciplinary subject that covers the problems of landscape redevelopment and the restoration of its productivity, ecological integrity, and economic and aesthetic value.

Chapter 17.102 SURFACE MINING AND RECLAMATION

Public input can be made at the local level as an application is being considered by county or city commissions. The fund is financed by a tax of 31.

Guidelines for pits and surface materials

To receive any federal or state funds, or any other funds, and to enter into any contracts for which funds are available to carry out the purposes of this chapter; 5. All inspections shall be conducted using a form provided by the State Mining and Geology Board.

Mining & Reclamation

The majority of the reclaimed mines have been reclaimed by operators. The ERP may also require additional monitoring reports.

Code of Virginia Code

This will provide the application number which can be used when requesting public records.
