Customer service is our top priority!. Connecting readers with great books since 1972. Because of its lightness, aluminum became a furniture material.

0517037351

Earlier making was a handicraft, going back to the most ancient civilizations. Metals have been used since antiquity for making and ornamenting furniture. The early Middle Ages were much poorer in household furnishings of every kind than the Roman world, but in the 14th and 15th century a growing affluence brought a major revival of furniture making, with many new types of cupboards, boxes with compartments, and various sorts of desks appearing.
