## Health survey for England, 2012

A significant amount of analysis has explored why many health outcomes are found to be worse in Scotland than in England. Funding for the Health and Retirement Study was provided by grant U01AG009740 from the NIA. In England, Germany, the Netherlands and Scotland, monetary incentives were used to promote participation.

## NatCen Social Research

A Cochrane review evaluated 47 studies from 1954 to 2008 on the effect of pre-notification before sending the actual questionnaire for survey invitees. Journal of Affective Disorders, 148: 310-315. Principal researchers: and The Health Survey for England HSE is a series of annual surveys about the health of people living in England.

## Health Survey for England (HSE)

In each survey, probability sampling was used.

## Scottish Health Survey

Although we purposely selected assays that were similar in nature and exhibit similar normal ranges of variation, an important priority for comparative international research is that tests be performed by laboratories in both countries on the same blood and serum samples. An interview with each eligible person in the household is followed by a nurse visit for those who agree to take part.

## Health Survey for England

Loneliness, common mental disorders and suicidal behaviour: Findings from a general population survey. Schizophrenia Bulletin 2016 42 4 :907-15.
