Приглашаем на выставку «Металлургия. Горное дело

In 2017, two major companies started working together: Becker Mining Systems RUS and KNAUF.

Global

ГОРНОЕ ДЕЛО - 2018», которая состоится 11-12 апреля 2018 г. Metallurgiya 14 1, 19—23 2014.

Classification of processes of oriented and random intergrowth and methods of producing epitaxial layers of various crystalline substances

Gasik, Theory and Technology of Production of Ferroalloys Metallurgiya, Moscow, 1988.

Mössbauer study of martensite in manganese and nickel steels

Pashley, Advances in Physics, 14, No. Our social media channels will also have information about our activities throughout the year.

Classification of processes of oriented and random intergrowth and methods of producing epitaxial layers of various crystalline substances

Each device can monitor multiple gases, including oxygen, methane, carbon dioxide, carbon monoxide, hydrogen sulphide and nitrogen dioxide, etc. Several tasks needed to be solved at the gypsum quarry in Novomoskovsk. Becker Mining Systems has gas monitoring solutions that will fit your needs.

Global

Любое их использование должно сопровождаться ссылкой на источник размещения. Hot-swap capability simplifies sensor calibration and replacement. The main measuring unit — the smartsense® Fixed Monitor SSFM-100 — is mounted in areas of interest.
