Issues in natural resources management in developing countries

Policy analysis: concepts and practice. Howlett M and M Ramesh 2003. An important consideration regarding evidence-based decision making is the question of the relevance, robustness and quality of the evidence.

The Regional Institute

Such implementation is predicated, to a large extent, on the capacity that exists at national and regional levels. Siry, in , 2013 8. Communication and persuasion: central and peripheral routes to attitude change.

Southern African Development Community :: Regional Indicative Strategic Development Plan (RISDP)

The Priority Intervention Areas presented in this chapter are as follows: 1. Subcanopy vegetation height can also be estimated using this technology Dubayah and Drake 2000. Based upon these outcomes, substantive policy interventions are selected and evaluated and implemented.

The Regional Institute

Giant hydro-power plans surge ahead. Donovan RJ and Henley N 2003.

The Regional Institute

It highlights strategies for communities, organizations, and others to consider in addressing natural resource, water infrastructure, energy, and climate challenges at the regional and local level. Number 69, reprint 11, March 2005.

The Regional Institute

Rational Choice Theory Rational Choice Theory and Deterrence Theory are commonly used in the design of Government policy interventions such as those described above. For policy makers, this becomes much more difficult when there are multiple stakeholders, complex settings, and vague policy problems involved.

Southern African Development Community :: Regional Indicative Strategic Development Plan (RISDP)

The psychosocial characteristics and on-road behaviour of unlicensed drivers. In the latter examples, because of the large scale benefits expected from these projects, Government policy makers have been surprised by the amount of community opposition that was engendered. Land redistribution schemes have not effectively distributed land resources.
