Can You Believe in God and Evolution?: A Guide for the Perplexed : Peters, Professor Ted, Hewlett, Martinez: Amazon.sg: Books

Who is Charles Darwin and what did he actually say? Theologically, the idea of a highly interventionist Creator undermines human freedom and makes it difficult to understand the goodness of God. So how can we interpret the creation story in the Bible? Authors Ted Peters and Martinez Hewlett give a discussion of the impact of evolution to help church leaders understand the values at stake.

Can You Believe in God and Evolution?: A Guide for the Perplexed by Peters, Ted

We are being pushed in one direction by creationists and in another by atheists: either God or Darwin, but not both. Who is Charles Darwin and what did he actually say? If it had been the title of their first book, I think that the authors and the book-buying public would have been much better served. To date, the hypotheses best supported by evidence are invariably those which agree with evolutionary theory.

Can You Believe in God and Evolution?: A Guide for the Perplexed

As such it is not productive science. So how can we interpret the creation story in the Bible? They make the case that Christians can connect their faith in God with a scientific understanding of evolution with integrity.

Can You Believe in God and Evolution? · Abingdon Press

They reject all forms of creationism on the basis of their naïve approach to biblical interpretation, their embarrassing weakness in actual science, and their unnecessary contribution to the misunderstanding of Christianity in the public arena. Its association with social Darwinism and eugenics is well known. Can you believe in God and evolution? It is a statement about physical reality, not a metaphysical claim.
