AECON

We offer unique opportunities to grow and develop a long-term career with our Aecon team, and we do it all in a culture that protects our people, our partners and our planet. .

Programs A

Aecon is a leader in providing project development, financing, investment and management services through our Concessions segment.

Programs A

From the water infrastructure that supplies our businesses and homes with clean and reliable water — to the pipelines joining provinces with the energy that fuels the nation — and the airports and ports that connect us all — Aecon is there connecting communities. The coming together of companies and people across the country and beyond to become the Canadian leader in construction and infrastructure development. From the roads and transit systems that connect our communities — to the communication networks that join us from coast to coast.

Programs A

Aecon safely, profitably and sustainably delivers integrated services and solutions.

Programs A

Creating reliable and faster service, the Eglinton Crosstown LRT will run along Eglinton Avenue between Mount Dennis Weston Road and Kennedy station.

AECON

Starting out in the 1950s as my family's prefab concrete business in Quebec, the Aecon story is one of evolution and progress. This 19-kilometre corridor will include a 10-kilometre underground portion, between Keele Street and Laird Drive and will have 25 stations and stops.
