## LANDSLIP news

Nor may it be created by those who, not unlike former central committees, claim the knowledge of what is good for Europe and its citizens. However, we recognise that local input is important. The Cooper plan and the Republican alternatives are united in opposing such mandates.

## Geotechnical and hydrological characterization of hillslope deposits for regional landslide prediction modeling

A little further is Bishop's Castle, immortalised as 'Mallards Keep' by novelist Mary Webb.

## Geotechnical and hydrological characterization of hillslope deposits for regional landslide prediction modeling

New York is still a city where reading the latest books before your friends is almost a competitive sport. Mr Bonham, chief executive since April 1992, was made deputy chairman last month, and the stock market had taken this to mean that he would succeed Lord Hanson, who is 71 and due to retire in 1997. What I want to do is to try to get him to do more than he is already doing.

## The Iron Bridge

I have always held the Select Committee in high regard, and DEFRA takes its views seriously and tries to respond to them

## LANDSLIP news

The detailed mapping that Norwich Union and others have undertaken—like the hon. Friend gave, and it would be worth while looking at a town like Worcester to see how the scheme is working and what its effects are.

**Corpus of articles from the English newspaper 'The Financial Times' from the year 1993. MLCC machine readable version 1995**

Perhaps we know all this, but it is worth putting it on record that we are having debates about flood defences not simply because the system has been faulty for so long, but because we are facing climate change of significantly increasing proportions. It was published way back in 1996 in the third edition, but unfortunately has not been reprinted since.

**Flood and Coastal Defence Policy (Hansard, 13 March 2003)**

I visited many villages over the new year period—Orcheston, Tilshead, Shrewton, Tisbury, Chilmark, Winterslow, Cholderton, Allington, Hurdcott, Ford, and Pitton. During the terrible floods in 2000, the industrial estate flooded badly and threatened the working day of Watts Industries, a major employer, in Lydney. Friend might also be interested in the tie-up between the Highways Agency, which was mentioned by the hon.

**Flood and Coastal Defence Policy (Hansard, 13 March 2003)**

Of course, if the local authority can put together a scheme that meets the three criteria—technical, environmental and cost benefits—we will consider it, but those criteria must be met.
