National Association of Special Education Teachers: Teachers Teaching Exceptional Children

At times, parents request a conference to discuss their perceptions.

Parent

Beginning when the child is age 14 or younger, if appropriate , the IEP must address within the applicable parts of the IEP the courses he or she needs to take to reach his or her post-school goals.

Special Education

If that does not resolve the issue, contact your supervisory committee. Always be friendly and professional.

Supervisory Committee & Internal Audit Conference

If parents do not agree with the IEP and placement, they may discuss their concerns with other members of the IEP team and try to work out an agreement. The behavioral family emphasizes convergent thinking and a linear learning process where learning is broken down into small, sequenced behaviors with frequent rewards for correct responses. The administrators should verify that teachers are preparing and maintaining adequate and accurate records of student progress.

Parent

The regular education teacher of a child with a disability, as a member of the IEP team, must, to the extent appropriate, participate in the development, review, and revision of the child's IEP, including assisting in the determination of- 1 Appropriate positive behavioral interventions and strategies for the child; and 2 Supplementary aids and services, program modifications or supports for school personnel that will be provided for the child, consistent with 300.
