I was rescued from this condition by William Archer, who transferred some of his book reviewing work to me, and pushed me into a post as picture critic which had been pushed on him, and for which he considered himself unqualified, as in fact he was. So, as reviewer for the old Pall Mall Gazette and picture critic for Edmund Yates's then fashionable weekly, The World, I carried on until I found an opening which I can explain only by describing the musical side of my childhood, to which I made only a passing allusion in my Immaturity preface, but which was of cardinal importance in my education. But all the operas, and vast quantities of the German instrumental classics, he had imbibed in the course of a youth whose musical experiences he recounts in a most entertaining preface to the present volume.
