

Worldwide distribution of radio receiver sets.

Office of Research and Intelligence, United States Information Agency - Cleaning Up the Air and Using Up the Oil

Description: -

- Radio broadcasting -- Statistics.

Radio -- Receivers and reception. Worldwide distribution of radio receiver sets.

- Report (United States Information Agency) -- no. IEV.BA.12.

Report / [United States Information Agency] -- no. IEV.BA.12 (July 1, 1954) Worldwide distribution of radio receiver sets.

Notes: Cover title.

This edition was published in 1954

Manufacturers of Time and Frequency Receivers

In the 1920s, these vintage radios using crystal detectors or cat's whisker detectors were the most popular format for broadcast radios. In the case of Mexico City smog, however, such negotiation is impractical.

Cleaning Up the Air and Using Up the Oil

Crystal Radio Sets History Includes: Crystal radios or cat's whisker sets were widely used in the early 1920s as broadcast receivers. We emphasize in many places in this book that market transactions generate value in an economy.

Time signal

A QSL card from 1969. One is a nonsmoker who dislikes the smell of cigarette smoke, while the other likes to smoke while working. In this instance, we can think of clean air as being another input into the production process.

Shortwave listening

This cost is not constant in either the short run or the long run. In other words, it is not possible to let some people consume the good while preventing others from consuming it.

Shortwave listening

This pollution largely comes from automobile emissions, which are a severe problem in part because so many cars in Mexico City are old. In some, garbage and sewage pollute the groundwater, or automobile emissions pollute the air. It consisted of what are described as a first detector, heterodyne, three stages of intermediate frequency amplification, second detector and two stages of low frequency amplification.

This logic falls down in reality because markets sometimes fail, for various reasons.

Cleaning Up the Air and Using Up the Oil

Time stations operating in the radio band have highly predictable characteristics, which gives low uncertainty in the received time signals. There is an optimal amount of driving for each individual, to be found where marginal social cost and marginal benefit are equal. After WARC-92 Samara went on to build WorldSpace and van der Heyden to build IndoVison and the satellite program for Indonesia.

Crystal Radio Sets & Cat's Whisker History » Electronics Notes

What matters for the pricing of oil is new information about existing resources.
