Birkbeck

There were a variety of reasons for this belief. Imagine holding history in your hands.

Bonhams : BOYLE (ROBERT) New Experiments Physico

In opposition to Epicurus, he argued that there are final causes and in opposition to Descartes, he claimed that in many cases we can have epistemic access to these final causes, though he agreed that we ought not be presumptuous in these matters. See Anstey 2002a and Inglehart 2015 for a full discussion of the issue. He often mentions the importance of conscience, but concentrates, as far as proofs go, on various design arguments, on arguments based on the incorporeality of the human soul, and on arguments involving miracles.

Perception and the Soul Two distinct notions of the soul occupied centre stage in the seventeenth century. Imagination was a matter of material images being formed in the brain.

Boyle's air pump, New Experiments Physico

The persuasive alternative to a demonstration was sometimes styled a proof, but often people spoke of moral demonstrations as opposed to strict, or mathematical, demonstrations. By adding mercury to the open end of the tube, he trapped a small volume of air in the sealed end. According to Boyle, there are four types of final cause that we can know.

BOYLE, Robert (1627

The second main account, stemming from Aristotle, had been taken over and made Christian by St Thomas Aquinas.

Robert Boyle

Probably we do not need to look farther for an explanation for his adopting such a view.

Touching Cold: Title within double-ruled border, engraved folding plate opposite A2v; lacking one plate, title-page age-darkened, marginal soiling in quire 2A. Convinced that Christianity was the religion instituted by God, Boyle was concerned that the Bible should be widely promulgated and he devoted time and energy to having it translated into a variety of languages such as Irish, Turkish, and various native American languages. Third, there are the ends that pertain to the parts of animals and fourth there are human ends BW, 11:87.
