These berries will attract birds, deer, small mammals, and possibly neighbors in the know who are interested in wine and jelly making. Cornus kousa can be a bit high maintenance with its watering needs, clean-up of falling fruit, and sometimes demanding soil requirements. KORG USA Inc is committed to inspiring all musicians and bringing the most innovative products and technologies to the US market, from electronic

instruments, amplifiers, DJ and production tools, keyboards, synthesizers, guitars, tuners, strings, accessories and more. Though the Cornus kousa is not considered drought-tolerant, it is more resistant to drought than native flowering dogwood.
