Jones College Mathematics

Core requirements for all Mathematics majors plus: Lower-Division Requirements: A. Two additional elective courses, at least one from MATH courses numbered 100—189.

Mathematics in the Junior Division

This approval should be applied for no later than the end of the junior year.

Math Worksheets, Printables, Activities, Lesson Plans

Similarly, - - may be used to satisfy upper-division electives or taken in place of - - and. There are a number of authors that write books specifically for the mathematical links and there are other mathematical connections that happen naturally through the writing process.

Mathematics Standards

MAT 1613 — Calculus I Prerequisite: grade of C or better in MAT 1323. Admission into a concentration or specialization is not guaranteed. You'll find resources here that are appropriate for whichever grade level you teach.

Mathematics Standards

Complete: - Numerical Analysis I and Numerical Analysis Laboratory Introduction to Abstract Algebra: Rings and Fields Probability II Introduction to Mathematical Logic Modern Geometry Number Theory - History of Mathematics and History of Mathematics Lesson Lab Plus one additional four-unit MATH course numbered 100—189. The standards encourage students to solve real-world problems. MAT 1323 — Trigonometry Prerequisite: grade of C or better in MAT 1313 or equivalent or ACT score of 21 or above.

Division of Math and Physical Sciences

Complete: - Numerical Analysis I and Numerical Analysis Laboratory Introduction to Abstract Algebra: Rings and Fields Probability II

Introduction to Mathematical Logic Modern Geometry Number Theory - History of Mathematics and History of Mathematics Lesson Lab Plus one additional four-unit MATH course numbered 100—189. Our courses and degrees serve four interwoven groups: Students majoring in math, science, and engineering with plans to transfer to a university Students in other areas completing their general education math and science requirements for transfer Students completing their prerequisite coursework in preparation for allied health careers Students needing developmental and refresher courses in mathematics In addition, the Great Valley Museum and the new Planetarium serve as fantastic new learning resources for students of all ages through museum tours and planetarium shows plus classes and fundraising events in the community.

Mathematics Standards

Students considering JYI-Math should seek advisement as soon as possible for guidance in meeting admission and program requirements.

Middle School Junior High Math Printable Worksheets page 1

This math mini office contains information on determining perimeter and area in metric and standard measurement for a variety of geometric shapes.
