One of the expected consequences of the change in the stratospheric composition, mainly ozone depletion, is the change in the penetration of UV-B in the troposphere, at the surface, and in the top layers of the ocean. Statement Champ Vallon Publishers Champ Vallon Classifications LC Classifications 1996 The Physical Object Pagination xvi, 111 p.

Determination and evaluation of tropospheric delay components in GPS measurements

We were fortunate to enlist the participation of outstanding experts in the field of atmospheric science and excellent teachers.
