

# Audit guide - payroll costs management : human resource information systems.

## Office of the Auditor General of Canada - What Is ERP?

Description: -

Principles of Human Resource Management	
Deal with people as complete individuals	Supply employees with relevant information.
Make people feel worthwhile and related.	Do not underestimate the intelligence of people.
Treat all employees with justice.	Treat people with respect and dignity.
Human resource management is not personal.	Provides opportunities for growth within the organization.
Rewards should be earned, not to be given.	The predominance of group interest over individual interests.
	Sell the HR program. It must be sold.

## What Is ERP?

In addition, one business area within CASA developed a BCP which was not approved as part of the entity-wide approach. The report on the testing included issues, risks and recommendations regarding the infrastructure tested.

## Business Continuity Management

While its BIAs identified critical functions, CASA focused on confirming a list of critical systems and facilities developed as part of its 2011 BIA processes, rather than critical functions. This generally included testing critical ICT systems, DSS also usually conducted an annual test of its entity-wide BCP , while CASA participated in a joint exercise with NSW police and emergency services. The plans were silent regarding the type and frequency of exercises that should be conducted.

## Business Continuity Management

The exercise also highlighted areas for improvement to be followed up.

## What Is ERP?

Check-up Digital includes an additional requirement for entities to successfully test or simulate its business continuity and disaster recovery plans on a regular basis. The PSPF also emphasises the importance of entities undertaking a range of activities to monitor their overall level of preparedness.
