Federal :: Duke Energy Carolinas, LLC; Oconee Nuclear Station, Unit Nos. 1, 2, and 3

Explanation: OA evaluates NNSA sites bi-annually.

U.S. GAO

Recommendation: In order to strengthen DOE's ability to meet the requirements of the new DBT, as well as to strengthen the department's ability to deal with future terrorist threats, the Secretary of Energy should report regularly to relevant congressional oversight committees on: 1 the status of DBT implementation as reflected by the required quarterly DBT implementation progress reports and 2 which sites and facilities are currently considered to be at high risk under the new DBT and what steps are being taken to mitigate these risks to acceptable levels. US Department of Energy SRT The US Department of Energy operates a number of specialized production and storage facilities through out the US. The academy provides DOE personnel with standardized training in various security disciplines, such the use of deadly force, physical protection, officer survival, unarmed defensive tactics, tactical response training, hostage negotiation, and Explosive Ordnance Disposal.
