## The emergence of super apps in Latin America

Also, the timeframe of the 2030 Agenda coincides with the beginning of the 2020 round of census. Lucia, and Trinidad and Tobago.

### Economic Commission for Latin America and the Caribbean (ECLAC)

In Haiti, ECLAC is collaborating with WFP in order to promote a new social protection and promotion strategy in the country. Items are listed in the chronological order in which they appeared in the press.

### Economic Commission for Latin America and the Caribbean (ECLAC)

Furthermore, national trainings and capacity building activities in Argentina, Bolivia, Cuba, Guyana, Panama, and Uruguay were also focus on supporting the mainstreaming of the SDG 7. The question is whether all these electoral events mean that we are on the eve of important changes such as the ones which took place in. Presidential elections were held in Bolivia, Brazil, Colombia, Costa Rica, Ecuador, Guatemala, Paraguay, the Dominican Republic and Venezuela.

## The emergence of super apps in Latin America

This support includes capacity development, knowledge exchange, and immediate response with post-disaster assessments. In this line, it is necessary to continue to provide resources for improving the quality of census, surveys and vital statistics, as well as for training on the use and analysis of these information sources.

## The emergence of super apps in Latin America

. The objective of this research is to analyze the tax incentive policy for companies in Latin American countries, in order to promote the debate and revision of these instruments in order to configure a tax system that promotes investment, while continuing to provide the resources necessary to meet the Sustainable Development Goals SDGs.

## **LAVCA's Annual Review of Tech Investment in LatAm**

Lastly, the document analyses the constraints on domestic resource mobilization caused by fiscal incentives and how, effectively geared towards investment, these incentives could instead foster sustainable and inclusive development. This technical assistance has consisted of workshops in both countries and it is still in course. This process resulted in a set of 150 prioritized indicators which constitutes the regional perspective for the statistical monitoring processes in Latin America and the Caribbean.

## **Britain and Latin America 1979: An Annual Review of British**

Workshops have been implemented in the strengthening of statistical institutions around the generation of SDG indicators at the national level, providing a comprehensive regional perspective of the statistical monitoring of the 2030 Agenda. Has your organization organized any conferences, forums or events designed to facilitate exchange of experience, peer and mutual learning in connection with the SDGs? During the last session of the Conference, 25 countries presented voluntary national reports on progress made in this area, which served as a basis to produce the First regional report on the implementation of the Montevideo Consensus on Population and Development.
