The Memoirs of Helene Kottanner (1439)

Helene Kottanner's account is unconsciously revealing about herself and her ambitions, allowing a rare glimpse into the inner world of a late-medieval woman.

The Memoirs of Helene Kottanner (1439)

That said, I found the work to be a memoir of a fascinating set of episodes in a medieval woman's life, translated in a workmanlike--but generally flat--fashion by Williamson.

nanny to Queen Elizabeth of Hungary in the early 1400's. This is a true story and well written. Her story is less than 20 pages after the introduction and after the story an interpretation essay by critics almost criticizing some of her sources.

The Memoirs of Helene Kottanner by Maya Bijvoet Williamson

The foreword provides a bit of historical context for those without an intimate knowledge of the political situation in fifteenth-century Hungary, while the extensive afterword delves into the lives and roles of women in the middle ages, without ever actually getting around to saying much. It was immediately rushed on a sl Helene Kottanner was servant and confidante of the widowed Queen Elizabeth of Hungary 1409-1442. Helene was a loyal servant and by the Queen's side while caring for the baby boy Ladislaus with her life.

The interpretive essay also adds something. I would believe that Helene being there would be the most reliable source and maybe the people who translated into English didn't understand exactly what Helene was saying or trying to say. The book provides a first hand account that add colour and detail to a series of important historical events that make them surprisingly accessible despite being from almost 600 years ago.

The Memoirs of Helene Kottanner by Maya Bijvoet Williamson

This book was written as a scholarly work, but I approached it from a non-scholarly point of view. The book provides a first hand account that add colour and detail to a series of important historical events that make them surprisingly accessible despite being from almost 600 years ago.

The Memoirs of Helene Kottanner (1439)

This is a story about a woman who was
