List of birds of Illinois

Ten species have been recorded in Illinois.
Most have small feet, of little use for
walking, and long pointed wings.

Identify a bird seen in Illinois by color

Check eBird for common locations, as
many flocks return to the same well-
stocked winter feeders each year, and
review some photos before you go.

Details

Shape: Appears large-headed, neckless, very short tailed. At the same time, water is locked into frozen ice so birds cannot easily drink.

Identify a bird seen in Wisconsin by color

Shape: Round body, short neck, round head, fairly long square-ended tail. They are common across most of the United States lower-48, except in the desert southwest.
