## Mammal Characteristics 101: What Is A Mammal? (2020 Guide)

What did mammals evolve from? Other mammals have narrow habitat requirements and occur in the limited areas where those requirements can be met. An endangered species is one that is in danger of becoming extinct from all or part of its range unless it receives immediate protection. Most of the Prototheria mammals are extinct.

## What Are Mammals?

Although secretive, they are active day or night in all seasons and can occasionally be seen along the larger creeks. Several efforts to reintroduce species that had been extirpated from the park have been successful.
