### Family therapy

Some see family as an emotional connection and being more than blood, while others may have a more literal take of the word and see it as more of a biological definition.

### Stepfamilies: How to help your child adjust

There's a theory that there's an emotional system that's evolved over billions of years, and the nervous system affects people and how they interact with each other. If there is a member of the family who needs help, members will assist them in any way they can.

### Stepfamilies: How to help your child adjust

However, more types of family have been recognized over the years, despite the nuclear family still often being the dominant type.

## Include Family Therapy

The concept describes when people in the family are cut off from each other, whether emotionally or physically. A family can be made of immediate members or extended.

## How Do I Know If My Family Needs Counseling?

Generational influences on family values can evolve over time, as well.
