Totemism

He coined the term structural linguistics and stressed that the aim of historical linguistics is the study not of isolated changes within a language but of systematic change. In 1983 he published a collection of essays, *Le Regard éloigné* The View from Afar.

Totemism

Lévi-Strauss considers small, ethnologically vestigial societies with a stable social structure to be the ideal object of a scientific study of employing structural analysis. He worked out the principles of structural anthropology.
