Business and the Environment

SWOT analysis helps in integrating external environment with the internal environment.

Relationship between Environment and Business

Introduction This assignment is prepared for giving the knowledge about the business and its operations, the environment in which business performs its functions and how business is influenced by the environmental factors. If demand is high then the market will go on a hike and if demand will go down then the market will also depression. So it is an independent, flexible and non- profit people organization which works selflessly for the welfare of the society.
