They all overlap at certain points in their thinking and deviate strongly at others.

**Transcritique: On Kant and Marx**

Kant fails to formulate the terms of thesis, antithesis and synthesis which do appear in Hegel and Marx later , but he defends, like Marx, that history suffers apparent setbacks can have a sense from this not easy to determine. The Kantian path to ethical transcendence is crucial, first, since it suggests the content of the categorical imperative in the famous third formulation , i. In the former case it appears as debauched frivolity, which realises and ridicules the hollow lack of ideas of the existing state of things, but only in order, having got rid of all rational and moral ties, to make sport of the decaying ruins, and then itself to be made sport of by them and dissolved.

### **Tom Rockmore, From Marx to Kant**

We find in it once more the whole frivolity of those rous, the base scepticism, which, insolent towards ideas but most subservient towards what is palpably evident, begins to feel clever only where it has killed the spirit of the positive, in order to possess the purely positive as a residue and to feel comfortable in this animal state.
