### Lake Tahoe Presentation on Radon: What You Don't Know Could Hurt You

Free test kits will be offered to Nevada residents. But radon may be a problem in your home that could harm your family. Call us at 801 438-4929.

### What You Don't Know About Radon Could Hurt You

Lenders typically do not require radon tests before they will extend credit for the purchase of a single-family home, and even Federal residential lending programs with strict home inspection guidelines do not require radon testing. But I had never smoked! Preventing lung cancer is so much easier and less costly than treating lung cancer. Then, during my sixth year of remission, an MRI showed a very large tumor in the front of my brain and a smaller tumor in the back of my brain, most likely due to the spread of the lung cancer.

### Testing your home for radon

Radon gas can damage cells in your lungs, which can lead to. It can also build up inside buildings. I want to share my story in the hopes that it might prevent even one person from getting lung cancer.

### Testing your home for radon

Short-term tests remain in your home for two days to 90 days, depending on the device. Radon is the number one cause of lung cancer among non-smokers in the United States.

### What You Don't Know About Radon Could Hurt You

Its presence in a home can pose a danger to a family's health.

### Radon in Utah Homes: What You Don't Know CAN Hurt You

Following the directions provided with the test kits and detectors is important, so the results will reveal the potential for elevated concentrations in the lowest lived-in level of the home.

### **Radon in Utah Homes: What You Donâ€™t Know CAN Hurt You**

However, Consumer Reports recently found that those test kits were not very accurate. Of homes tested in the state of Nevada, 26% have elevated radon levels. The 2014 monthly lecture series from UC Davis Tahoe Environmental Research Center begins January 28 with a presentation on the dangers of radon. Radon is a cancer-causing natural radioactive gas that you can't see, smell or taste.
