## PLANNING IN INDIA

However, the nature and content of analysis and the indicators used for analyzing the situation may vary between levels. Thus an important aspect of plan negotiation is appraisal through which the opinion of the experts is sought about the soundness and feasibility of plan proposals before it is finally approved for implementation.

## Top 5 Objectives of Planning in India

The unemployment rate has marginally reduced from 8. Drinking water from these bottles is very detrimental for our health. Lastly, techniques for production, presentation, and dissemination of analytical results are used to effectively communicate information to a range of audience.

## Economic Planning Process in India: 4 Main Stages

ADVERTISEMENTS: The following points highlight the four main stages in the economic planning process in India.

### **Shortcomings**

Planning support systems can add to this process by allowing other stakeholders to create scenarios more heuristically and compare them with scenarios generated through other means. In this way, the system will keep the record of the number of correct answers given by the users.

### **Top 5 Objectives of Planning in India**

Translating the strategies into programmes and activities is the next step in the plan formulation.
