The context is anchored, at least in part, on the history of the Apostle Paul who, according to Scripture, endured severe trial, testing, and even torment as he preached while embarked on his three missionary journeys after his conversion. Each visit reveals new caves are being discovered and paintings revealed our understanding of Ellora continues to grow and change. In order to make an attempt at answering these questions it seems reasonable to think over again the main characteristics of the modern Western world.

Moreover given the death of precisely correlated written and visual material in a study like this one the monument itself must be examined with particular care. This book describes the Buddhist caves at Ellora and places them in the context of Buddhist art and iconography. Because Ellora is unique, previous studies have slighted its relationships to other Buddhist monuments.
