Ross and Cromarty East Local Plan

They may not have any rare species but they are much valued by local people because they offer a refuge to wildlife in the area. The LPA will then proceed to determine the application taking into account representations received from persons, other than the applicant, who have been notified by him because of their status as owners. This means protecting and enhancing the Borough's environmental quality and providing for homes, jobs, infrastructure and services without undermining the value of built, natural and man-managed environmental resources.
