Making Better Use of Science and Technology in Policy

The two main regulatory instruments of that policy are the established by the Council of Europe on 5 May 1989, and the directive established by the European Council on 3 October 1989. Economic Integration with the USA.

Industrial policy

The American Scholar, 57 3 :227—352. The Canadian Business Review, Autumn, 12 3 : 17—23. Harvard Business Review, 70 6 :59—72.

Offshore Petroleum Politics: A Changing Frontier in a Global System

Publishers and producers complain that the aim of the European Union draft Directive was to harmonize European copyright laws and that, in leaving Member States free to regulate limitations in their applications, the draft Directive has failed to do so.

IIAPP

The input of science into policy should therefore be viewed, not as advice on what should be done, but rather in terms of what is known, what is unknown and how sure we are about it.
