Unless there is something wrong with one of these two arguments, the argument for the incompatibility of free will and determinism or the argument for the incompatibility of free will and the falsity of determinism, free will is impossible. Armand Maurer 1953 Toronto: Pontifical Institute of Medieval Studies. It is also obviously correct that the will is ordered towards goodness in general and so any object that is good in principle an object of the will.

Metaphysics (Stanford Encyclopedia of Philosophy)

For it is not only those things which can never exist in matter that are said to be separable from matter in their intelligible constitution and in being, such as God and the intellectual substances, but also those things that can exist without matter, such as being in general.

Edward Feser: The metaphysics of the will

Logically speaking, a substance is what is predicated neither of nor in anything else. Some of them, in fact, have been willing to defend the thesis that the world is very different from, perhaps radically different from, the way people thought it was before they began to reason philosophically. It would seem, however, that Sally is either essentially a physical object or essentially a non-physical object.

For earth, that activity is to approach the center to the universe; water has the same tendency, but not as strongly. But again, sense data were not in the mix.

Metaphysics (Stanford Encyclopedia of Philosophy)

Some wondered whether Descartes could actually explain how his infinitely divisible matter could coalesce into solid bodies.
