Promoting Agribusiness Investment in Ghana: Rethinking Policy Incentives

Impact Policy type one — input support A summary of the impact of the four policies examined is presented in Table.

Government policy and agricultural production: a scoping review to inform research and policy on healthy agricultural commodities

Only articles that present empirical research were included; mainly quantitative evaluations, although some studies collected qualitative data e.

Government policy and agricultural production: a scoping review to inform research and policy on healthy agricultural commodities

Founded in 1968 and inspired by decolonization and the idea of a cooperative new beginning, the Journal also promotes a special interest in contributions on 'Law and development'. A , is a significant commercial crops The Leaf Development Company was established in 1988 to produce tobacco leaf for the local market and to lay the basis for a future export industry.

Agricultural policy and rural development

The result has been a concomitant dependence on agriculture-directed foreign investment in exporting countries, and food supply in importing countries.

Political Instability and Agricultural Policy Dynamics in Ghana on JSTOR

We also work with local communities and district governments to protect forest and marine ecosystems and fisheries in the Western Region. There are many projects in roads, railways, water transport, agriculture, etc. Fiscal discipline has been restored, and fiscal consolidation has taken hold.

Priorities and Policies for CSA

Major cash crops of the country include cocoa, oil, pineapple, tomatoes, and fresh vegetables. Industrialization and productivity improvement programs are expected to increase the output of the agriculture sector, create jobs and encourage greater participation by the private sector.

Ghana's economic and agricultural transformation: Past performance and future prospects

Six thousand three hundred and sixteen articles were excluded at this stage.

Government policy and agricultural production: a scoping review to inform research and policy on healthy agricultural commodities

Ghana has a rich livestock sector; we can boast of very good and healthy meat. It is possible that the use of additional literature data bases would have yielded further articles. Though access to land also has a limited influence on investments in the agricultural sector, many agribusiness leaders and state officials complained about the difficulties in acquiring land from traditional authorities and land conflicts.
