Geological Survey Professional Paper 1055, 22 p. Many of the articles exist in the public domain and can be found online at digital libraries such as , , or other digital repositories. Each of these butter wrappers represents a jumping off point from which any number of archival documents or published items could be identified, allowing a researcher to discover the history of the company or the region-specific industry.

Geology

Sapir initiated work on the of the and the , but it proved too difficult to find adequate assistance, and he concentrated mainly on Nootka and the languages of the North West Coast. Conquest and Concession: The Case of the Burma Ruby Mines, R.

Historical Reading

The establishment of the Silurian system was followed by that of the system, an investigation in which Murchison assisted, both in the south-west of England and in the .

Historical Reading

Roderick Murchison

This short report describes the beginning and promising future of the ruby mining company in 1889, followed several years later by the failure to recover enough rubies to pay its operating expenses and the debts and royalties it owed to the Indian government for rights to operate a mining concession. Hamilton, Edinburgh Philosophical Journal, Vol. Listed reports mostly are books, periodicals, and other serials, symposium and conference or congress volumes, and maps, but certain unpublished material may also be cited--such things as dissertations and masters theses, some guidebooks, and reports open filed by the Survey or by other Federal, State, foreign, or private agencies.
