## Chapter 10 Airport Emergency Planning

Covers pre-planning for airport emergencies, as well as co-ordination between the different airport agencies and those of the surrounding community that could be of assistance in responding to an emergency. Airports, regardless of size are likely to be quickly overwhelmed for resources during an emergency.

### Airport Emergency Planning: The Challenge of Limited Resources

In plain terms, a commercial service airport with 50,000 aircraft operations a year may be required by the FAA to have more stringent emergency plans, response guidelines and more resources than a general aviation airport with 250,000 aircraft operations a year.
