carpenter or shoemaker has work to do, but a human being as such is inert. In living creatures, the form was identified with the soul; plants had the lowest kinds of souls, animals had higher souls which could feel, and humans alone had rational, reasoning souls.

Aristotle Onassis

This comes rather, necessarily, from discussion of the credible beliefs endoxa belonging to the science.

Aristotle (Stanford Encyclopedia of Philosophy)

Aristotle contends: Some people think that since knowledge obtained via demonstration requires the knowledge of primary things, there is no knowledge.

Best Aristotle Quotes

Suppose you have carefully saved a bowl of chocolate mousse all day for your mid-evening snack, and just as you are ready to treat yourself, a friend arrives unexpectedly to visit. Of course, before being made into a statue, the bronze was also in potentiality a fair number of other artefacts —a cannon, a steam-engine, or a goal on a football pitch.

Biography for Kids: Aristotle

By offering this definition, Aristotle is able to advance the judgment that time does exist, because it is an entity in the category of quantity: time is to motion or change as length is to a line. This helps explain why Aristotle thinks it appropriate to deploy his apparatus of core-dependent homonymy

Aristotle Quotes (116 quotes)

But early on, when first trying to give content to the idea of happiness, Aristotle asks if it would make sense to think that a

in the case of being.

Aristotle Roufanis Studio

Aristotle appeals to homonymy frequently, across a full range of philosophical concepts including justice, causation, love, life, sameness, goodness, and body.

Aristotle

It is useful for conversational exchange because once we have enumerated the beliefs of the many, we shall engage them not on the basis of the convictions of others but on the basis of their own; and we shall re-orient them whenever they appear to have said something incorrect to us. Second, what are the different forms of rule by which one individual or group can rule over another? Change, to Aristotle, was cyclical: water, for instance, might evaporate from the sea and rain down again, and rivers might come into existence and then perish, but overall conditions would never change.

Aristotle

He also learned about the Greek gods, philosophy, and mathematics.
