### Art in Tuscany

Indeed, Vasari is not documented ever having travelled to, or visited any part of France. Frederico Zuccari, a painter who had studied with Correggio, was commissioned to complete the work which

would take a further five years to complete.

### BBC Radio 4

He worked mainly in Florence and Rome, but throughout Italy and was frequently commissioned by the Medici family. It is likely that such a description could only have been written by someone who had actually seen the work. The dado zoccolo or basamento of the wall has been either transformed or eliminated.

### Sala dei Cento Giorni

And in this work of Leonardo there was a smile so pleasing, that it was a thing more divine than human to behold, and it was held to be something marvelous, in that it was not other than alive. It seems as if the viewer could step up into the painted scene and participate in the events occurring in narrative istoria.

### Giorgio Vasari Begins Construction of the Uffizi : History of Information

The artist can use it as a self-test, with the help of which he can avoid excessively unrestrained ideas. For having fallen in love with painting, he cared nothing for his creature comforts and reduced himself to eating only boiled eggs which, to economize on fire, he used to cook whenever he was boiling glue, not six or eight, but fifty at a time, keeping them in a basket and eating them one by one. Although he may not be a household name, if you have been to Florence and visited the Uffizi gallery, which was designed by him, you will have seen in its endless corridors the work of the artists whose lives he told with lively anecdotes, and whose paintings he described and assessed.

## **Internet History Sourcebooks**

The headquarters of the academy nowadays is Palazzo dell'Arte dei Beccai.

### **Giorgio Vasari: the man, the stories and the 'Lives'**

Mona Lisa, born in 1479, was at that time a young woman in her early 20s.

### **Giorgio Vasari :: Biography ► Virtual Uffizi**

When the Medici returned to Florence in 1512 the hall had fallen into disuse until Cosimo I moved his residence into the Palazzo Vecchio in 1540 and used it to receive ambassadors and public audiences. As he grew old, he constantly wore boots fashioned from dogs' skins on his bare feet for months at a time, so that when he later wanted to remove them his skin would often peel off as well.
