W. Clowes - Charters Vs. Bylaws for Nonprofits

(3) Thailand's asset forfeiture regime is operating to the benefit of the State, and (4) Thailand's enthusiasm for bringing about a more effective and efficient AML/CFT system is truly appreciated by the world community.

11. It should be reiterated that each country has a distinct legal system deemed to be best suited to their socio-political conditions. Some countries have mechanisms whereby legal amendment processes are very conveniently carried out while in some countries, the same facilitating processes cannot be found. As for Thailand, except for very urgent matters, a draft law usually undergoes various stages ranging from the drafting committee at the ministerial level to the Cabinet, to the Council of State, to the Parliament and to His Majesty the King. Law making in general, and making of AML/CFT law in particular, takes time due to the fact that it usually contains some provisions that restrict individual rights and liberties and naturally is subject to extensive scrutiny.

12. Notwithstanding, fully realizing that Thailand's AML/CFT system still has some distance to go for perfection, the Thai authorities concerned have already taken appropriate measures to amend the AMLA. Thailand appreciated that the AML/CFT assessments have opened up new vistas for the country, prompting a review of the legal, institutional and administrative frameworks related to AML/CFT activities and to take appropriate measures aimed at a more efficient and effective legal regime.

The fighting reserve which Great Britain has in the Indian races adds greatly to her political influence and prestige, and it would be violation of the British sense of justice to use the blood and the valour of these races in war and yet to deny them the protection of the British name in the enterprise of peace.
