Aviation Safety

Fatigued workers The workshop delegates ranked fatigue as the second largest risk to safe work. Situation awareness appears in the technical literature as early as 1983, when describing the benefits of a prototype touch-screen navigation display. This metric is part of the FAA Re-Authorization Bill Section 214 performance metrics requirements.

International Journal of Aviation Systems, Operations and Training (IJASOT): 2334

Perception Level 1 SA : The first step in achieving SA is to perceive the status, attributes, and dynamics of relevant elements in the environment.

Human Factors Challenges for Aircraft Maintenance

This course, part of the Safety and Mission Assurance Technical Excellence Program, is designed for the individual responsible for planning or directing an Aviation Safety program.

International Journal of Aviation Systems, Operations and Training (IJASOT): 2334

Airlines will construct their schedules and allocate their crew resources with the lowest cost possible.

Situational Awareness (OGHFA BN)

A computational causal model quantitatively predicted search behavior and changes in SA in fighter pilots. The first, , has a more common place in the Marine Corps sniper school and police academies.
