### Documents

In women most of these diseases are recessive, and the healthy copy thus cancels out the defect.

### GDPR personal data

· Support the establishment of anti-corruption legal assistance centres. The European Group on Ethics in Science and New Technologies to the European Commission, Press Dossier, Adoption of an opinion on Ethical Aspects of Human Stem Cell Research and Use, Paris, 14 November 2000, p. Tax cooperation and gradual convergence with the European corporation tax system · Continue and extend dialogue on implementing the principles of good tax governance, including the EU code of conduct on business taxation.

### CPESC: Documente si comunicare: Protectia datelor : politici europene

In Spain, at least for the time being, there are no regulations which hold the status of law for forensic genetic databases. An individual can thus inherit two normal copies of any given gene, or one normal and one defective copy, or two defective copies of that gene.

### Humanising Imprisonment: A European project?, European Journal on Criminal Policy and Research

The potential for publicly funded genetic research databanks is consequently enormous. The demand for organs rises as transplant technologies develop. Article 152 allows incentive measures designed to protect and improve human health to be adopted under the codecision procedure.
