## **Dehumanization Nations**

But when the reason is set up as the supreme arbiter of human knowledge and denies or ignores principles and qualities which transcend its competence, then it necessarily degenerates into a mechanical, inhuman, and godless faculty; and the picture of the universe it projects and the character of the world it fabricates in accordance with that picture are equally mechanical, inhuman, and godless. In their 2000 book *From Chance to Choice: Genetics and Justice*, non-transhumanist bioethicists Allen Buchanan, Dan Brock, Norman Daniels and Daniel Wikler have argued that liberal societies have an obligation to encourage as wide an adoption of eugenic enhancement technologies as possible so long as such policies do not infringe on individuals' or exert undue pressures on prospective parents to use these technologies in order to maximize and minimize the inequalities that may result from both natural genetic endowments and unequal access to genetic enhancements.

## Rage against the Machine

As he wrote in 1921: We cannot yet tell in detail how this communal love of work with its voluntary nature and joy in creativity will become practical reality.

## The utilitarian scientist: The humanization of scientists in moral dilemmas

For similar reasons, we seek to push back against the pressure, enabled by technology, to allow our daytime work to spill over into times that should be reserved for our families or for the community.

## Is technology dehumanizing us?

Following this dialogue, , a , conducted a pilot study, published in the , suggesting that religious attitudes were negatively correlated with

acceptance of transhumanist ideas and indicating that individuals with highly religious worldviews tended to perceive transhumanism as being a direct, competitive though ultimately futile affront to their spiritual beliefs. Books can be written to demonstrate its evils. However, other progressives have argued that posthumanism, whether it be its philosophical or activist forms, amounts to a shift away from concerns about , from the and from other Enlightenment preoccupations, toward longings for a of the human body in quest of more ways of being.
