Bob Benge

The early postmasters received very little financial compensation. Hardships would seem never ending. Around these places of business were formed small villages on important roads and crossroads.

John Bradford Moore

Mary Jemison became known as the White Squaw of the Genesee.

A History of the Fairfield, Pa.

Many of the rugs were three-color of red, white and black; gray, black and white; also natural brown and indigo blue, or navy. Around 1940, a vegetal revival style was taken up by Crystal. In the 1830's this land belonged to the Zimmerman family Carpenter.

U.S. Census Bureau QuickFacts: United States

These sheep were well-suited to the climate in Navajo lands, and that produced a useful long-staple wool. Self-doubt was an ever-present companion. The rug can range from large, simple, bold designs to intricate, more sophisticated works.
