## How to Castle in Chess?

Despite some obligations of my professional life, I always find time to play chess along with my wife, children, and friends. Endgame Tactics The endgame stage lends itself to tactical ideas that are common in the endgame. The point is that after 1.

## Chess Board Setup

This removes the defender of the black rook on a6 and at the same time defends the queen on c8. Black will often play ... Nf6 soon to increase the pressure.

## Queen's Gambit (How To Play It, Attack It, And Counter It)

For example: , , and can in some situations appear to be the same thing.

Move the king 2 spaces towards the rook.

## 10 Most Deadly Chess Opening Traps You Must Know at [mikhmon.us.to](http://mikhmon.us.to)

The Queen's Gambit is a chess opening when the following moves are played: The idea behind the Queen's Gambit is: White is trying to exchange his wing pawn the c-pawn for a centre pawn Black's d-pawn. The Bishop roll is often the final coup in the Bishop pair vs King battle. However, by means of triangulation white can reach the same position and hand the move to black: Diagram above: 1.
