### Edutopia

Université de Laval initiated its own learning platform in the late-2000s, through the ; prior to COVID, 71% of its courses did not have an online component, but by end of March 95% of its courses transitioned to the online platform

### Postsecondary

It can help you realize what areas you might need to work on prior to taking the SAT or the ACT.

### College

The 540,000 students completing post-secondary education this year likely completed their programs remotely. WIA programs, by design, further promote cross-agency approaches to serving youth, leading to strong coordination and collaboration of services.

### Postsecondary Education Administrators : Occupational Outlook Handbook: : U.S. Bureau of Labor Statistics

Work integrated learning or WIL has become a part of studies for nearly 60% of post-secondary students, as it cultivates workplace skills and professional networks that can facilitate smoother transitions to employment. Champaign: University of Illinois, Transition Institute. Stronger collaborations between universities and colleges will be needed to reduce duplication of and increase access to online resources.

### Postsecondary Teachers: Jobs, Career, Salary and Education Information

Class sizes vary by grade level and subject, too. While some universities are recognizing Massive Open Online Courses or MOOCs in their admissions practices, the real friction point will be within the credit transfer system

### 21st Century Skills: The Future for Students' Academic and Career Success

Canadian institutions historically lacked the resources or expertise to fully develop online learning. About 16% of university and 12% of college students , while more than one-third of undergraduates had at least one course with blended learning.
