Differentiating the Curriculum

Differentiating instruction may mean teaching the same material to all students using a variety of instructional strategies, or it may require the teacher to deliver lessons at varying levels of difficulty based on the ability of each student. It will force them out of their comfort zone.

Differentiation In The Classroom: 8 Strategies That You'll Need

Can you come up with some of your own examples for students that would create the feelings of ownership and predictability in the students? Cons: This can lead to lowered expectations of pupils perceived as less able and could mean that opportunities for those faster-progressing pupils to overlearn, improving longer-term retention of knowledge, are missed. This then gives teachers and support staff a narrower range to focus on while giving high-quality instruction. Differentiating instruction to include all students.

Differentiation In The Classroom: 8 Strategies That You'll Need

This is a great chapter in his book that ALL primary school teachers should read and stick with. The teacher must be clear about the identified learning objective and should share the objective with the student with autism.
