## Introduction to the geography universe

History of the Census The Canadian census has a long history. The SAC provides unique numeric identification codes for these hierarchically-related geographic areas.

## Census of Canada, 1911

The data are available for all standard geographic areas. However, a number of changes were made to some questions and sections of the questionnaire.

## Census of Canada, 1971

A CMA or CA is delineated using adjacent municipalities census subdivisions as building blocks. They are provided by Canada Post Corporation and are valid as of May 2011. The Kamloops CA included Kamloops City, Brocklehurst, Westsyde, Valleyview Town, Dufferin District Municipality, Skeechestn Indian Reserve and a large rural part of Subdivision B.

## Census of 1851

Examples: Saddle Lake Agency; St. Kamloops city was still in Census Division 6 Subdivision C Nicola.

## Census of 1851
