### Young people under pressure and fearful for the future

The other BLS figures indicate that this field included 39,090 statisticians in May 2019. At 15 I started as an apprentice on 3 axis milling machines and making way through 4 axis and 5 axis milling machines. After all, we will be the ones using, managing, and advocating for them in the future.

### Choosing Futures: Young People's Decision

This short documentary from The Economist looks at the possible long-term effects on the economy and the future of work: As explained in the video, it is lower-income jobs that are most at threat.

### Young People Really Are Our Future: Making It a Bright One

Millions are affected by poverty and violence, living their lives in fear.

### The future is becoming a burden on the young. These three principles could protect the generations to come

By 2029, there are expected to be 47,000 more, an increase of 18%. Finally the authors would also like to thank Mr Jonathan Hoffman, Research co-ordinator at the West Midlands Regional Genetics Unit WMRGU for his assistance in identifying families who could Citation Excerpt : Moreover, their understanding is not grounded in specific genetic knowledge, as it originates from family narratives. In the past 12 months I have now taken on the role of production manager at produmax and enjoying the challenges that role brings.

### Young people make the future

That looks at the wellbeing of people yet to be born? From a part of a bike to a part for aerospace. This year nothing has changed, the findings show that young people feel powerless, unable to control their lives, anxious about their futures and crippled with anxiety about their self-image.

### Choosing Futures: Young People's Decision

The UK government has enshrined this target in law — although many experts say that developed countries such as the UK must decarbonise

much more swiftly than this.

## **50 Young People Making Manufacturing Smarter part 2**

Software development involves figuring out what users need, designing and testing software to meet those needs, making upgrades to older programs, and maintaining and documenting software to make sure it keeps working correctly in the future.
